

Bates Office expects all major suppliers and sub-contractors to have working Health & Safety, Environmental and Equal Opportunities policies in place.

On appointment we will ask for copies of all of the above policies along with proof that these are implemented.

We expect our procurement partners strategies to closely align with that of our organisation.

Bates Office recognises our corporate social responsibility commitment and we seek to demonstrate this in the way in which we engage with those who work for us and the way in which we relate to our customers. This is reflected in our company policies, corporate values and management systems as follows:

We strive to be a good corporate citizen, recognising our responsibility to the communities in which we operate.

We regard suppliers as an integral part of our operation and work with them to help us achieve our aspirations for quality of service.
